# JetWedge®
Connection Software

Connect your JetScan or JetSort machine to your POS system and automate data entry

Save time, minimize errors

JetWedge® software eliminates manual data entry, automatically populating your POS or other accounting system with coin and cash information. This does away with manual entry errors and provides you with instant access to coin and currency totals from your Cummins Allison processing equipment.

Auto-populating data eliminates keystroke errors

Processed information you currently type into the computer is entered automatically using JetWedge.

Advantages include:

· Save time by automating manual entry

· Increase accuracy by removing processing errors

· Increase employee productivity

Process automation simplifies training to get you up to speed fast. Setup is quick and easy and keeps disruptions to a minimum. JetWedge is compatible with virtually any Windows software application and adapts to host software system changes for added flexibility.

No manual key strokes needed. Data is sent to your POS or accounting system from JetScan iFX, JetScan, JetScan MPS and JetSort machines via the JetWedge application. Use with coins, cash, checks or casino tickets.

Cummins Allison offers a JetWedge hardware alternative for situations where a software solution cannot be used.

System requirements:

Requires one operative serial port per Cummins Allison device to be connected to your computer. Requires that keyboard entry in the software is available. Compatible with Windows operating systems: 8, 7, Vista, XP, 2000, 9X and OS2.

Connect JetWedge to all of these Cummins Allison products!

JetScan iFX currency, check and ticket scanners

JetSort coin sorters

JetScan money counters and currency scanners

JetScan MPS currency and ticket sorters
