

## Alio™ Note

### Description

With Alio™ Note, CPI has combined card reader, telemetry and digital display technology into a single device that seamlessly integrates with note acceptance. Capable of accepting cash, magnetic strip, mobile payments and contactless EMV, Alio Note delivers all you need for a complete solution, all in one device.

## Benefits

---

**Reduced hardware.** Combines cash acceptance, ePayment, telemetry, antenna, and full-color screen display into a single device for a better customer payment experience

**Faster Installation.** Reduced hardware provides 56% reduction in hardware installation time

**Industry-Leading Connectivity.** Eliminate the need for drilling accessory holes in machine with the industry's first internal cellular antenna and 4G LTE connectivity

**Engaging User Interface.** Digital, full-color screen with capacitive touch buttons allows for enhanced customer engagement and digital advertising opportunities

**Pair with Talos Recycler.** Pair with Talos recycler - deliver a potential 50% lift in sales

**Enhanced Service Experience with Diagnostics.**

# Specifications

---

## **Solution**

- Open

## **Operating temperature**

- -15°c to 60°c

## **Type of Payment**

- Cash, Contact EMV, Contactless, EMV, Magnetic stripe, NFC

## **Display Type**

- 2.8" Color TFT LCD
- Viewing Angle: Wide, 85°
- Resolution: 320x240
- Brightness: 800 nits
- Supported Image Formats: jpeg, gif, png

## **Storage Temperature**

- -40°c to 70°c

## **Hardware/Interfaces**

- USB OTG, Rs232, CAN (CPI Synq), MDB Master/Client, MSR

## **Compliance**

- CE, ROHS, FCC, ESD Protected, Water Ingress: IP54

## Security

- Embedded Secure Element, DUKPT Encryption, RSA, TDES
