

# COTI Freestanding Coffee Vending Machine

## Description

[Try the COTI interactive product demo here to see how it works and what customization options we offer.](#)

With COTI, CPI delivers the coffee shop experience 24/7 in this streamlined, feature-rich, touch screen vending machine. Built on the legacy of highly engineered, self-service machines, COTI combines Merchandising Systems' brewing technology with innovative machine design to provide a reliable experience for users and measurable ROI for operators. With a 21" touchscreen, customizable beverage menu, and bean and instant coffee variants, operators can provide customers with a delightful coffee experience, while increasing their bottom line with a higher price point.

Designed to work in line with existing Crane systems, COTI seamlessly integrates with other Crane machine management systems. Pull your entire system together with customizable machine graphics to complete your portfolio.

# Benefits
