

Universal™ Hopper

Money Controls

Universal™ Hopper

Description

The Universal™ Hopper by CPI is one of the world's most popular coin hoppers for good reason. It is universal because it supports all the world's coins (even the troublesome ones) with minimal adjustments. Inventory is kept to a minimum.

The Universal Hopper is a large capacity coin hopper with elevated security and protection against fraud. It has a good reputation for reliability, low maintenance requirements, and low overall cost of ownership.

Benefits

Minimize complexity and inventory costs. Universal design supports most global coins without hardware adjustment

Maximize uptime. Jam resistance through continuous agitation of the coins and an auto-reverse function

Increased machine efficiency with intuitive level sensing

Low cost of ownership. Long working life with low maintenance requirements

Less user intervention. High coin capacity means less cash pickups—it can hold 1,200 €1 coins

Specifications

Dimensions (H x W x D in mm)

- 288mm x 129mm x 242mm

Coin Processing

-

Coin Capacity

- 1200 x €1 coins
- 950 x £1 coins
- 1500 x US 25¢ coins

Cascading Functionality

- Not available
