

CLS Advance

INCREASE COIN HANDLING EFFICIENCY WITH HIGH-SPEED RECYCLING

Counting coins and managing coin transactions can be a laborious task. By integrating a secure recycling solution coins can be automatically counted, stored and paid out as change to customers.

By automating coin handling, the CLS Advance offers a cost-effective way to offset increasing labor costs and improve staff productivity, while improving transaction speed for customers and allowing you more time to focus on the customer.

Noted for its high speed and compact format, the CLS Advance also accounts for every coin going in and out of the system, which eliminates the need for reconciliations at the end of the day.

Experience the CLS Advance coin recycler, a new level of engineering excellence:

- Maximise customer throughput with faster service using the high-speed bulk coin acceptance rates of the CLS Advance
- The compact dimensions of the CLS Advance provides installation flexibility and minimizes real estate
- Dual-locking, fully enclosed system keeps the coins secure
- The high capacity of the CLS Advance hoppers optimizes up-time by reducing the need for refilling and employee intervention
- The CLS Advance can recycle up to 8 different coins and has double and triple size hoppers if you only need to recycle fewer denominations

IMPROVE THE CUSTOMER EXPERIENCE WITH FASTER TRANSACTION TIMES

CLS Advance Specifications

DIMENSIONS & WEIGHT

| | |
|------------------------------|--------|
| Height | 250 mm |
| Width | 300 mm |
| Depth (with coin cup) | 485 mm |

RECYCLING

| | |
|----------------------|---------------------------|
| Denominations | Up to 8 |
| Bulk Coins In | Up to 50 coins |
| Input Speed | Up to 10 coins per second |
| Output Speed | Up to 6 coins per second |

CAPACITY

Up to 335 1€ coins in a single hopper
Maximum capacity of 2,680 1€ coins

INTERFACE

USB

POWER

24 volts DC-10% +20%

OPERATING & STORAGE TEMPERATURES

| | |
|---------------------------|-------------|
| Operating | 5°C to 55°C |
| Storage | 5°C to 40°C |
| Operating Humidity | 5 - 85% |

SECURITY

Dual locking system limits access to coins
