

Money Machine[®] 2

Dual Bin Self-Service Coin Counter

Adding self-service coin machines presents an opportunity for profit – or return on investment – for financial institutions, grocery stores, casinos and others.

And with Money Machine[®] 2, Cummins Allison's next-generation self-service coin counter, you can have the fastest coin counting, 99.995% accuracy, and more choices for coin collection and pickup than ever before.

Five coin-collection options are available:

- Bag capture with 16 sorted bags – up to 78,000 coins total
- Bag capture with 16 mixed bags – up to 80,000 coins total
- Bag capture with 8 sorted bags – up to 36,000 coins total
- Single bin – up to 70,000 mixed coin capacity
- Dual bins – up to 140,000 mixed coin capacity

Reduce coin pickup costs, minimize staff involvement

Built for fast, effortless operation and best-in-class reliability, Money Machine 2 provides tremendous flexibility to suit your operational requirements and preferences.

High volume locations can rely on our mixed bag or dual-bin unit for continuous processing, less frequent bag changes and reduced coin pickup costs. The second bin starts filling when the first bin is full, so employees visit the machine less often and spend more time with customers.

More choices for adding self-service coin to your business

Flexible options let you buy, lease, rent or place a self-service coin machine in your store, branch or casino. Each program has different financial and business advantages, allowing Cummins Allison to provide you with the program that best meets your needs.

- **Placement:** This option requires no investment. Instead, Cummins Allison places the coin counter free-of-charge and manages the entire coin-counting solution for you.

- **Lease:** Reap the value of buying and realize potential tax benefits without the capital investment.
- **Rent:** With a fixed monthly payment, count on a fixed expense and the ability to set user fees to cover expenses.
- **Own:** Maximize long-term profitability and return on investment (ROI) through self-service coin machine ownership.

Double your coin collection capacity with the Money Machine[®] 2 Dual Bin Self-Service Coin Counter

Money Machine® 2 dual bin self-service coin counter

Standard features

High-speed processing: At speeds as fast as 4,100 coins-per-minute, Money Machine 2 boasts the fastest coin sorting in the industry.

Advanced debris management: Debris such as paper clips, screws, bolts and bent coin are diverted to a debris cup for easy disposal.

Continuous suspect coin detection: Suspect coins are diverted to a coin-return cup uncounted, maintaining the unmatched coin-sorting speed.

Transaction memory and reporting: More than 30,000 transactions are stored in the Money Machine 2 memory. Daily reports can be easily obtained by authorized employees at any time. Supports 100 individual user passwords.

Customizable screen display: Customized text and graphics may be used on the customer greeting screen. Service fee amounts and fee disclaimers can also be specified here.

Customizable transaction receipt: Print a logo with up to four lines of text at the top and bottom of the patron receipt (allows two logos total).
